

Response to requirement for Election/Restriction:

Applicants elect without traverse the invention V as defined by the Examiner, that is, the compound or composition of the formula I, where $Z=N$, $X=N$, and P is a phenyl group and Q is a phenyl ring containing according to claims 1 – 2 and 27.

Pursuant to 35 U.S.C. § 121, Applicants elect as a single species the compound of Example 23 of the present application, that is, 3-Amino-*N*-[2-(aminocarbonyl)phenyl]-6-{4-[(4-methylpiperazin-1-yl)sulfonyl]phenyl}pyrazine-2-carboxamide.

Applicants identify Claims 1 - 2 and 27 as amended and/or presented herein as encompassing the elected species. Applicants further identify claims 11 - 17 presented herein as claims directed to methods of using or methods of making the elected species. Applicants further identify claim 20 presented herein as a claim directed to an intermediate used in the making of the elected single species.
